

Winmax Sprayable

4-4-12

GUARANTEED ANALYSIS FLORIDA REGISTRATION NO. F 2018

Total Nitrogen-----4.00%
4.00%-----water solution N
Available Phosphate-----4.00%
Available Potash.....12.00%
Chlorine not more than-----1.00%

Derived from: Trizone urea solutions, Potassium Phosphite, Potassium Acetate

2.4 units from slow release N

Contains humates, amino acids, and fulvic acids

DIRECTIONS:

Winmax Sprayable is very safe to use. Rates at up to 20 gal per acre (2 qts /1000 sq ft) should cause no problems, but use caution in hot dry weather.

COMPATIBILITY

Do not mix with micro-nutrients or other fertilizer materials. This product can be used with most crop protection chemicals. Use a jar compatibility test with unfamiliar mixes.

Winmax Sprayable, the organic plant food and soil microbe enhancer. Slow release Organic Nitrogen that provides small amounts of Nitrogen to the dynamic soil community so as to insure that plants can assimilate needed amino acids and poly-peptides for natural healthy growth. Organic Potassium Acetate, an organic source of Potassium that will feed soil micro-organisms, as well as help maintain potassium levels within the plant leaf and soil. Natural Amino Acids and auxins provide plants a jump start during times of stress and less than optimal growing conditions. Humic and Fulvic acids are nature's chelating and plant nutrient complexing agents. These large and complex organic molecules will provide carbon sources for the soil microbe population as well as aid in the complexing and translocation of nutrients throughout the plant's vascular system.

CAUTION IN HOT DRY WEATHER KEEP OUT OF REACH OF CHILDREN

Weight per gallon: 10 lbs per gal
Net Contents: Cases 2 x 2.5 gals

CONDITIONS OF SALE

ProPlus Products, Inc offers this merchandise for sale subject to the following conditions of sale, which can be varied only by written agreement from ProPlus Products, Inc.

ProPlus Products, Inc. warrants that the chemical composition of the merchandise conforms to the label description and to be reasonably fit for the purpose referred to in the "Directions for Use" on the label.
