

Healthier Turfgrass, Naturally

EcoPlus, All-Natural Fertilizer Enhancer &
EcoPlus Complete Biofertilizer

ProPlus Products launches EcoPlus, a natural organic, fertilizer enhancer that includes both proteins and carbohydrates. EcoPlus provides the essential building blocks needed for energy and strength. EcoPlus, a first of its kind chelating agent is a natural bio-enhancer designed to maximize turfgrass health and color in Florida's challenging growing environment.

Powered by groundbreaking EcoPlus Duo Chelation Technology with natural organic proteins and carbohydrates.

EcoPlus, a Solution to Help Meet Florida's Demand to Reduce Fertilizer Inputs. This unique blend of 27 essential elements encompasses the soil, roots, and stomates while minimizing the negative environmental impact on our Florida waterways. EcoPlus is environmentally friendly and completely biodegradable for sustainable turfgrass practices. Use it to your existing fertilizer program to maximize the fertilizer performance naturally.

EcoPlus Enhances Turfgrass Naturally

SOIL

- + Solubilizing pathways for P and Ca
- + Stronger, more robust roots
- + Increase the efficiency of most pesticides and fungicides

PLANT

- + Increase Photosynthesis and plant health
- + Lasting Vivid Color
- + Mobilizes nutrients within the plant

ROOTS

- + Increased Drought Resistance
- + Reduce pesticide and fertilizer inputs
- + Increased stress resistance

I used my sample of EcoPlus in my greens spray program at 2 oz/1,000. The results were excellent, I am integrating EcoPlus into my monthly nutritional spray program. It's easy to use and I see results. I can't wait to see how it does after my summer aerification.

Biofertilizer Solution: EcoPlus Complete

EcoPlus Complete is a biofertilizer product of natural organic compounds. It combines free proteins and carbohydrates with a complete micronutrient package. Other biofertilizers contain either carbohydrates or proteins, EcoPlus products have both. EcoPlus Complete is formulated to motivate turfgrass. Turfgrass responds with increased stress tolerance, enhanced nutrient uptake, and more efficient growth processes.

EcoPlus and EcoPlus Complete are manufactured exclusively by ProPlus Products, Inc. EcoPlus products are backed by science and powered by a first of its kind Duo Chelation Technology, ProPlus has 40 years experience with chelation and is driven to produce high-performance liquid nutritional. "Our formulating knowledge combined with high-quality raw materials enabled us to formulate ground-breaking technology in liquid fertilizer," Christy Lyle, President, ProPlus Products, Inc.
